

# CASE STUDY RHS GARDEN ROSEMOOR

TOTUS

**Sector:** Commercial  
**Client:** Royal Horticultural Society  
**Scope of Works:** Mechanical and Electrical Installation  
**Contract Value:** £285k

Totus were employed to carry out the installation of mechanical and electrical services in a new multi-function Garden Room with its intended use primarily for Weddings, Concerts and Flower Shows for up to 300 people.

The services installation were planned to compliment the natural and modern materials used within the build of this impressive building.

Within the two function rooms Linear LED lighting was installed with RGB colour change and lighting control to enable the end users to set various scenes depending upon the function of the rooms.
